“**Deposits Average Daily Balance**” or “**Deposits ADB**” means the average daily balance for the calendar month, taking into account the deposits in a customer’s Eligible Account for that calendar month. Deposits ADB is the sum of the daily balances of an Eligible Account for a calendar month, divided by the total number of days in that calendar month where Bonus Interest will be paid on the incremental Deposits ADB.

For the avoidance of doubt, Deposits ADB is calculated as follows:

[Sum of daily balances] / [Number of days in the calendar month]
